### Job Description

**Job Description**

Our client, a leading Fintech company that provides alternative investment services, is looking for a creative and collaborative Senior Product Designer who will play a crucial role in shaping the user experience and visual identity of their innovative financial UI/UX products and services in the alternative investments sector, while collaborating with various stakeholders.

The Individual will:

- Create UI design.
- Construct and operate design systems.
- Communicate in English during meetings.

---

## Required Skills

### Who you are

- Ability to work and act independently.
- Values the significance of teamwork and communication across departments.
- High communication skills.
- Fits well with the culture of venture organizations.
- Enthusiastic about new and innovative ventures.
- Eager to challenge and change the existing norms in the industry.
- Flexible to adapt to change.

### Requirements

- 2+ years of practical experience as a UI or Product Designer.
- Experienced collaborating with product managers and engineers.
- Has practical experience in UI design using Figma.
- Has basic knowledge of design systems.
- Has basic knowledge of HTML/CSS.
- Has enthusiasm for improving the UI design process.
- Has the ability to consider UI design balancing user value and business value.
- Business-level proficiency in Japanese, and advanced English skills are essential.

### Desired skills

- Experienced in UI design for business-oriented products.
- Experienced in the construction and operation of design systems.
- Understands and interested in engineering.
- Experienced in financial/fintech product design.
- Experienced in B2B2C business product design.

---
