Job Description

Company Profile

A European headquartered insurance firm are looking for an experienced IT infrastructure project manager to join their team and deliver a range of global, regional, and local initiatives.

The Role

Working with an international team of stakeholders, you will be leading a wide range of infrastructure projects relating to servers, networks, devices, cloud systems, security; and you'll be leading projects of varying sizes and scale. You'll be supporting the company's wide range of insurances businesses (both life and non-life) and will collaborate with various IT functions, working to ITIL guidelines.

Your Skills

- Business level Japanese and English are both mandatory for this role.
- An infrastructure / IT operations and project management background will be needed to perform well in this role. Any previous experience within a highly regulated industry or the financial industry would be an advantage.

Location

Tokyo 23 Wards

Salary

10M - 13M JPY

Selling points

- Join a stable and globally recognised company, and contribute to a range of global, regional, and local projects.
