■About the support system after joining the company
Depending on experience and skills, there is a possibility of business trip and assignment to overseas group companies. We are looking for people who have some basic knowledge and who like to create computer graphics. In addition, you will be communicating in English with the staff of the group companies, so if you are interested in working in English, you would be a good fit. We also have a support system for those who wish to acquire qualifications such as interior coordinator or a first/second-class Architect certificate etc.

■Regarding evaluation and salary
As we are a small organization, we expect our staff to have a certain degree of flexibility, but we have a system in place that makes it easy for them to improve their careers and be evaluated as they work harder.
