Job Description

1) About the company

We are currently looking for an Android Software Engineer to work with a leading tech company in Japan.

They have an extremely strong and growing reputation for developing innovative products and are highly rated by their users.

They offer a flexible work arrangement with a diverse international team.

2) Who are you

- You are an experienced Android apps developer.
- You are a self-motivated individual that enjoys working in a team.
- You love building incredible mobile experiences that touch a huge number of users.

3) Why should you apply

- Flexible work arrangements – office-based, remote work, or a hybrid model, your choice!
- Highly diverse team coming from different countries with a Silicon Valley-inspired culture.
- Relocation supports (ex. Visa support, moving costs, transportation and accommodations) are available for specific candidates.

Required Skills**4) Requirements**

- 3+ years team working experience and developing Android apps.
- Proficiency in Kotlin.
- Good understanding of Android Studio Instruments.
- Proficiency in basic Japanese AND English.

5) Desired skills

- Familiarity with application architecture from defining, designing, and shipping Android applications.
- Experienced working in application that have a large user base.
- Understanding of systems programming language, such as Java, etc.
