Job Description

1) About the company

Are you a frontend engineer looking to be a part of something bigger? We are currently recruiting for frontend engineers who would like to be a part of a large scale and growing organisation.

The company has seen lots of growth and is continuing to expand today. As one of the top cloud security services available in Japan, the company aims to use its cutting edge technology to ensure seamless security across mission platforms and applications.

The projects they are working on have the power to change and enhance the industry.

Who are you?

- A software engineer with experience in frontend development.
- Have the passion to be a part of a significant cause.
- The desire to be a part of a dynamic and driven team

Why should you apply?

- Joining will mean an upgrade to your portfolio and skill sets as a frontend engineer.
- Great opportunity to be building something that can change lives.
- Hybrid work environment with flexible core working hours
- Excellent career progression and benefits.

Required Skills

Requirements

- Have work experience with modern technologies (HTML, CSS, TypeScript, React, Vue.js, Angular, React)
- Are able to communicate and work in English (Japanese is a major plus point)
- Interest in the growing tech industry.

Nice to have skills

- Experience working in a fast growing environment
- Degree in Computer Science or other related technical fields
- Leadership experience
