Job Description

Our company, headquartered in Okinawa, specializes in building telecommunications infrastructure. You will be involved in a wide range of tasks, from wiring work to optical fiber fusion splicing and connectivity testing. Since you will work alongside experienced senior employees, even those with no prior experience can start with confidence.

Project durations vary, from as short as one day to approximately three weeks. You will have the opportunity to work on both B2C and B2B projects!

Job Description

- Pre-installation surveys
- Indoor and outdoor wiring work
- Optical fiber fusion splicing
- Connectivity testing
- Preparing work completion reports, etc.

The Appeal of This Job

- Our company supports high-quality telecommunications services that connect the world. You will have the rewarding opportunity to contribute directly to bridging Okinawa with the global community. With comprehensive training and support, even those without experience can acquire the necessary skills with confidence.

A Great Work Environment

- You will work in pairs with experienced colleagues, ensuring a safe and supportive learning environment.
- Our team values teamwork and consideration, fostering a positive work atmosphere.

求める人材:

- Want to develop their skills in the telecommunications industry
- Value teamwork and cooperation
- Have strong communication skills
- Want to build a long-term career in Okinawa
- Aim to utilize their qualifications for career growth
