### Job Description

In this role, you will be the primary point of contact for the service department handling the day-to-day operations, management of service staff, along with customer & technical support.

Responsibilities include:

- Management of the workshop service operations, including Mobile Van Techs and Workshop Service Techs to ensure structure, compliance, and standards are met.
- Monitor tech activities, calibration laboratory equipment, ISO compliance requirements.
- Manage & Support Mobile techs schedule, site inductions.
- Provide management with monthly analysis and reports on service metrics.
- Liaise with customers & sales agents to provide technical support.
- Assist in inventories with teams throughout the year.

- Management and compliance of company policies and procedures.
- Recruiting, interviewing, onboarding, & training assistance of service personnel.
- Contribute to the continual improvements in service department processes. Effective management of service personnel, processes, and quality policies in service department for streamlined repair and calibration services.

HYTORC was formed in 1968. We are the world's leader in hydraulic and pneumatic torque wrench manufacturing. Our mission is to make industrial bolting safer, simpler and more precise and thus, more reliable. From the bottom of the ocean capping an oil leak in the Gulf to the top of the world, erecting the new Freedom Tower, we help all industry with better bolting solutions. For over 55 years our focus has been on engineering new technologies for hydraulic and pneumatic torque wrenches while creating a worldwide 24/7 service network our customers can depend on. As a result HYTORC has become the most trusted name in industrial bolting systems.

HYTORC, has an exciting opportunity for an experienced Workshop Manager to lead the service operations from our main office located in Tokyo for Japan. You will effectively manage our current customer base, while growing the service business with our HYTORC mobile vans offering onsite services.

This is a fast-paced working environment and an excellent opportunity for the right person.
