Job Description

An international technology brand is seeking an SCM Specialist. The selected candidate will manage supply chain operations, coordinate with global teams, and drive efficiency in supply processes.

A computer hardware and software company, this organisation has a history of success with its product line of electronic goods. Now covering a wide global network with hundreds of employees operating in a variety of locations, this institution continues to provide high quality products to customers all over the world.

Keywords:

サプライチェーンマネジメント, 需要計画, 在庫管理, ロジスティクス, 求人, 外資系

Job Ref: FOJET9

Responsibilities:

- Develop and manage product demand plans for finished products and consigned parts
- Coordinate with EMS suppliers to ensure timely and sufficient supply
- Monitor and adjust inventory levels to prevent over/under-supply issues
- Oversee logistics and transportation from ODM/EMS to customers
- Ensure compliance with SCM regulations and prepare regular reports
- Identify and implement process improvements for supply chain operations

Requirements:

- Bachelor's degree or above
- More than 3 years in Supply Chain Management
- Strong planning and interpersonal skills
- Ability and willingness to travel overseas
- Professional level Japanese; proficient in English (TOEIC 700+)

Company Description

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
