Job Description

Overview

Are you passionate about working in a high-impact role where you define the future of online grocery shopping?

This company is transforming online grocery shopping with modern AI, robotics, and automation, making the process faster, more efficient, and highly scalable. As a strategic subsidiary of one of Japan's largest retail groups, they launched an AI-powered online supermarket in, rapidly growing and offering 50,000+ products, which is more than twice the size of major online grocery markets in Japan. With a vast product selection and extremely fast order processing, this service makes it possible to finish your shopping within 45 seconds and have it delivered to you within one hour.

They are hiring a Senior Product Manager to lead the development of e-commerce, logistics, and core business systems. This role is responsible for product roadmaps, system requirements, and automation strategies, ensuring a scalable and

optimized digital shopping experience.

Key Responsibilities

- Oversee the development of e-commerce (OSP), business operations (SCM, CRM), and core systems (HR, accounting, etc.).
- Define product roadmaps, system requirements, and workflow automation to optimize logistics and order fulfillment.
- Work cross-functionally to integrate AI and automation into supply chain and business operations.
- Improve user experience and operational efficiency by refining system functionality.
- Manage vendor collaborations and ensure seamless system integration.

Required Skills

Must-Have Requirements

- 3+ years of product management experience in web-based systems or e-commerce platforms.
- Experience in system design, business process optimization, and automation.
- Experience leading product development and working with cross-functional teams.
- Fluent Japanese

Preferred Qualifications

- Experience working with global vendors and managing system integrations.
- Background in retail, logistics, or large-scale e-commerce system development.
- English proficiency for collaboration with international teams.
