# Job Description

## About

Join a fast-growing tech startup whose mission is to address today's most significant operationally pressing issues through creating technologies that eliminate the need for manual labor and keeping up with the changing user expectations.

We're looking for an **Electrical/Mechatronic Engineer** to take ownership of hardware development for our next-generation automotive solutions. If you enjoy being at the intersection of design, testing, and real-world deployment, this is your chance to lead development across the full hardware lifecycle.

# What We're Looking For

- Electronic/Mechatronics experience
   Experience with hardware development for automotive or mechatronic systems
- Experience with naroware development for automotive of mechanismic systems
  Hands-on skills with PCB design, component selection, and electrical analysis
  Understanding of industrial standards and safety regulations
  SolidWorks and CAD experience

- Comfortable in an international environment

# Benefits

- Social Insurance
- Paid holidays
- Transportation

Company Description
