Job Description

Sales Engineer

A top tier company from the steel strap industry is currently looking for a suitable Sales Engineer candidate to be based in the Shah Alam area. The candidate needs a blend of technical expertise and strong communication skills to effectively bridge the gap between the technical and sales teams.

JOB RESPONSIBILITIES:

- Build and sustain strong relationships with key clients, understanding their specific packaging needs.
- Offer technical expertise on packaging solutions, including product specifications, applications, and performance benefits.
- Conduct site visits and packaging assessments to recommend optimal solutions for clients.
- Create and deliver engaging sales presentations and product demonstrations.
- Work with product development and technical teams to ensure solutions meet customer requirements.
- Oversee the sales process from initial contact to post-sale support, ensuring a seamless customer experience.
- Negotiate contracts, pricing, and terms to close deals and meet sales targets.

JOB REQUIREMENTS:

- Diploma or Bachelor's degree in Engineering, Mechanical, Business, or a related field.
- 1-3 years of sales experience, ideally in the industrial packaging or manufacturing sectors.
- Excellent skills in communication, presentation, and negotiation especially in **Mandarin**.
- Demonstrated success in meeting sales targets and driving business growth.
- Ability to comprehend complex technical specifications and convert them into customer-friendly solutions.
- Self-driven, results-oriented, and capable of working independently as well as part of a team.
- Proficiency in Microsoft Office Suite.
- Willingness to travel as required to meet clients and conduct site assessments.
- **Location of work:** Shah Alam.
