Job Description

Company and Job Overview

Our client is a multinational transportation and logistics company, based in Subang Jaya, is seeking for a junior cybersecurity professional. The chosen candidate will be responsible in protecting the IT infrastructure, develop and test software application, and support any ad hoc troubleshooting.

Job Responsibilities

- Monitor and protect IT infrastructure from cyber threats, ensuring security and compliance.
- Manage website content, security, and performance.
- Develop, test, and maintain software applications.
- Provide administrative support and configuration for in-house logistics software.

Job Requirements

- Diploma or Degree in Computer Science or a related field.
- Capable of planning IT infrastructure, managing resources, and creating budgets to meet organizational objectives.
- Strong grasp of cybersecurity principles, risk management, and ensuring data integrity and system security.
- To be considered for this role, the relevant rights to work in Malaysia are required. Candidates who require work pass need not apply
