### Job Description

Job Title: Japanese Speaking Business Analyst & IT Consultant

Location: Patumwan, Bangkok

Job Type: Full-Time

Job Description:

Our client, a leading firm in the IT Solution sector, is looking for a skilled Japanese Speaking Business Analyst & IT Consultant. This role is perfect for professionals who are proficient in Japanese and have a strong background in business analysis and IT consulting. Join a dynamic team and contribute to innovative projects that drive business success.

Responsibilities:

- Analyze business processes and identify opportunities for improvement.
- Gather and document business requirements and translate them into technical specifications.

- Provide IT consulting services, including system implementation, integration, and support.
- Facilitate communication between Japanese-speaking stakeholders and the technical team.
- Conduct data analysis and generate reports to support decision-making.
- Ensure the successful delivery of IT projects within scope, time, and budget.

Requirements:

- Proficiency in Japanese (JLPT N2 or higher) and English.
- Bachelor's degree in Business Administration, Information Technology, or a related field.
- Experience in business analysis and IT consulting.
- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal skills.
- Ability to work independently and collaboratively.
- Knowledge of ERP/SAP systems is a plus.

Benefits:

- Competitive salary and benefits package.
- Opportunities for professional development and career advancement.
- Inclusive and supportive work environment.
- Health and wellness programs.

How to Apply: Interested candidates should submit their resume and cover letter by clicking on the “APPLY” button.
