Job Description

【ABOUT THE COMPANY】

Global virtual currency aims to become a blockchain platform

A comprehensive platform that includes virtual currency exchanges, exchanges, and peripheral services, and is still young, established in January 2014, but has raised approximately 4 billion yen in funding and has over 2 million users. The company is the only exchange in the world with licenses in Japan, the U.S., and Europe (*According to our research).

In addition, the company is responsible for the planning, design, development, and operation management of services using

blockchain technology, as well as the planning, design, development, and operation management of web services and applications.

In the future, the Group will continue to unite to create innovation in the FinTech area, aiming to provide the world's leading services and technologies for both virtual currency and blockchain.

【JOB DESCRIPTION 】

You will be responsible for backend development work for the company, a leading crypto asset exchange in Japan. The company is looking for someone who is committed to delivering the best products to customers and who can work on daily development with a sense of ownership. Let's challenge together to make the world easier with blockchain, aiming for both speed and reliability.

■Responsibilities
・Development of all back-end systems for crypto asset exchanges (C#, ASP.NET)
・Lead software architecture
・Improve the knowledge level of the engineering organization through active knowledge transfer
・Design and development of API for web or apps
・Development of new products, etc.

■Technology Stack / Development Environment
・Server Side: C# / .NET / .NET Framework / ASP.NET
・Front-end: React / Vue.js / TypeScript
・IDE: Visual Studio
・VCS: Git / Azure Repos
・CI/CD: Azure Pipelines
・Monitoring: Datadog / PagerDuty
・Others: Slack / Google Meet / Google Workspace / Confluence / Jira

----

【WELFARE】

・Full social insurance (health insurance, employees' pension insurance, unemployment insurance, and workers' compensation insurance)
・Short-distance housing allowance (up to 50,000 yen per month, according to our regulations)
・Incentives for short-distance housing (100,000 yen in accordance with our regulations)
・Subsidy for book purchase (company expense)
・Medical checkup (company expense)
・Free drinks, free snacks, free noodles
・Subsidy for meals
・Subsidy for moving expenses when you join the company (paid according to company regulations)

*It may vary depending on your employment status.

Required Skills

■**Required**
・Knowledge of data structures and algorithms
・Knowledge of concurrent/asynchronous processing programming
・Business level Japanese

■**Preferred**
・3+ years of development experience with .NET Framework and ASP.NET (C#)
・5+ years of system development experience
・Experience in Web API development
・Experience in financial system development
・Experience in large scale service development (able to design considering load)
・Experience as a leader in a development team

■**Ideal Applicants**
・Have high ethical standards
・Able to self-learn
・Adaptable to change
・Able to define, solve, and provide value as a professional.
