## Job Description

### COMPANY OVERVIEW

A leading Japanese company in the marine electronics industry is looking for a Field Engineer in the Hamburg area, Germany. Due to business expansion, we are seeking a responsible and adaptable professional to provide top-notch technical support and services.

### JOB RESPONSIBILITIES

- Engineering tasks on ships (hull, deck, high places, etc.)
- Daily technical support for customers (ship owners, fishing companies, shipbuilding companies)
- Regular maintenance and emergency repairs
- Installation, setup, and adjustment of new equipment upon purchase

- Technical guidance and parts support for partner agencies

## **JOB REQUIREMENTS**

- Background in electrical or mechanical engineering
- Valid driver's license
- Experience in repairing and maintaining electronic equipment
- Experience in electrical work

## **BENEFITS**

- OJT will be carried out
- Detailed working condition and benefits will be provided when interviewing

This position welcomes individuals from various backgrounds, including electricians, factory maintenance technicians, and aircraft or automotive mechanics. Specific experience in a particular job is not required. Since marine electronics is a niche field, new hires will become familiar with their products and operations through training and on-the-job training (OJT) after joining the company.

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding
