Job Description

As a Security Engineer, you will protect systems and data by implementing policies, monitoring threats, and responding to incidents. You'll work with teams to strengthen security, compliance, and resilience across projects.

Client Details

We aim to build a secure and resilient infrastructure to support the evolving needs of finance. Our focus is on enabling safe, reliable systems for the future of the industry.

Description

You will develop and enforce security frameworks like ISMS/ISO 27001 and ensure company-wide compliance. You'll also manage tools like IAM, VPN, and SIEM, while automating processes to improve efficiency and threat detection.

Job Offer

Join an engineering-driven culture and work with cutting-edge security technologies to protect mission-critical financial systems.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Tomoji Miyashita on +813 6832 8652.

Required Skills

Candidates need 5+ years of experience in security-related fields and business-level English and Japanese skills.

Company Description

Your company aims to build a secure and resilient infrastructure to support the evolving needs of finance. Our focus is on enabling safe, reliable systems for the future of the industry.
