Job Description

The Material Planning Manager will play a pivotal role in managing the end-to-end lifecycle of raw material procurement and inventory management. The successful candidate will be responsible for liaising with suppliers, ensuring adequate stock levels, and overseeing supply chain processes within the life science industry.

Client Details

Our client is a globally renowned entity in the consumer healthcare sector. The organization is large, with a vast international presence, and is known for its innovative approach to life science solutions.

Description

- Manage the end-to-end procurement process of raw materials.
- Build and maintain relationships with suppliers.
- Ensure adequate inventory levels to prevent stock-outs or overstock situations.
- Develop strategies for efficient and cost-effective supply chain management.

- Oversee the execution of supply chain processes, ensuring compliance with company standards and regulations.
- Identify potential risks within the supply chain and develop mitigation strategies.
- Coordinate with cross-functional teams to align procurement activities with business objectives.
- Provide leadership and guidance to the procurement team.

Job Offer

- An estimated salary range of up to 11M JPY per annum.
- An inclusive company culture that values employee growth and development.
- Opportunities to work with a diverse and international team in Narita.

If you are passionate about supply chain management within the life science industry and are seeking a challenging role in Narita, we encourage you to apply for the position of Material Planning Manager.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

Required Skills

A successful Material Planning Manager should have:

- A degree in Business Administration, Supply Chain Management, or a related field.
 - Proven experience in procurement and supply chain management in a manufacturing setting
 - Strong negotiation skills and the ability to build relationships with suppliers.
 - Excellent analytical skills to manage inventory and oversee supply chain processes.
 - Strong leadership skills and the ability to guide and motivate a team.
