Job Ref: X8ZIZT

Responsibilities:

- Lead strategic projects to improve productivity across Customer Service, Field Service, and other service teams
- Analyse and assess processes to identify improvement opportunities and reduce inefficiencies
- Oversee and support kaizen activities across the region
- Deliver training and promote best practices in process improvement
- Drive standardisation and sustainability by understanding regional systems and processes
- Represent local needs in global business system enhancements
- Act as a liaison between APAC, global teams, and key stakeholders
- Collaborate with departments, including IT, finance, sales, and marketing, to align efforts
- Support the development of user requirements, testing plans, and SOPs for system changes
- Report regularly to Asia Service Leadership on progress and challenges

Requirements:

- Bachelor's degree or above in a relevant field
- More than 5 years of experience in process improvement, project management, or customer service
- Proven experience with CRM and ERP systems (e.g., SAP, Salesforce, Oracle)
- Skilled in EDI, RPA, SAP BI, Tableau, MS Office Suite, SmartSheet, and Visio
- Familiarity with business functions such as sales, finance, manufacturing, and quality
- Possess Lean Six Sigma black belt certification
- Ability and willingness to travel
- Professional level Japanese; fluent level English

Company Description

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
