Job Description

We are seeking a meticulous and dedicated Demand Planner to join our Procurement and Supply Chain department in Tokyo. The ideal candidate will be responsible for improving the efficiency of our supply chain operations within the FMCG industry.

Client Details

Our client is a large organization operating in the FMCG industry. They are renowned for their innovation, quality, and commitment to sustainability. The company has a strong global presence and holds a leading position in the market.

Description

- Lead the demand planning process and implement improvements where necessary.
- Collaborate with cross-functional teams to ensure supply chain efficiency.
- Conduct quantitative and qualitative analysis to forecast product demand.
- Monitor, track, and report key functional metrics to reduce supply chain costs.
- Address demand-related issues in a timely and effective manner.
- Develop and execute product phase-in and phase-out plans.
- Work with the procurement team to ensure inventory optimization.

- Contribute to the overall growth and profitability of the company.

Job Offer

- A competitive salary package in the range of JPY 5,400,000 to JPY 7,600,000.
- Challenging and rewarding work environment.
- Opportunities for professional growth and advancement.
- Relocation assistance for candidates outside Tokyo.
- An inclusive, diverse, and collaborative workplace culture.

We encourage all interested candidates who meet the above criteria to apply for this exciting opportunity in Tokyo. As a Demand Planner, you will play a crucial role in our success and growth in the FMCG industry.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Geo Louw on +81364021516

Required Skills

A successful Demand Planner should have:

- A degree in Business, Statistics, or a related field.
- Prior experience in demand planning and supply chain operations.
- Strong analytical and problem-solving skills.
- Proficiency in statistical analysis software and supply chain management systems.
- Excellent communication and collaboration skills.
- A deep understanding of the FMCG industry.
- Ability to work in a fast-paced environment and manage multiple tasks.
