Job Description

About the company

We are looking for an experienced Android Software Engineer to work for a well-established, Japanese company.

They offer a flexible work environment that is fully remote and with no core hours. The team is diverse, which creates a strong international atmosphere.

Who are you?
• You are an experienced Android app developer.
• You are a self-motivated individual who enjoys working in a team.
• You enjoy building an engaging experience that can touch a vast number of users.

Why you should apply

Flexible work arrangements.

A diverse, international team environment.

Experience working with a highly regarded company in Japan.

Required Skills

Requirements
1. 2+ years of experience developing Android apps.
2. Proficiency in a systems programming language, such as Java and Kotlin.
3. Business Japanese language proficiency.

Desired
• Familiarity with GraphQL to connect Android applications to back-end services.
• Understanding of TCP/IP, HTTP/HTTPS, and other major network protocols
• Basic knowledge of popular media formats such as HLS, MP4
