Job Description

A global pharmaceutical company is seeking a QA Operations Manager / Site QA Manager to support quality operations related to external manufacturing and product distribution in Japan. The role offers cross-functional collaboration and meaningful work within a growing and stable organization.

Client Details

Our client is a well-established global pharmaceutical company with a strong presence in Japan. Known for its focus on innovation, quality, and work-life balance, the company offers a supportive culture, international collaboration, and a hybrid work environment.

Description

- Oversee QA activities for external manufacturing and distribution
- Review and support key quality documentation and compliance processes
- Collaborate with internal teams and external partners to ensure quality standards
- Contribute to improvement projects and regulatory support as needed

Job Offer

- Competitive Salary
- A base bonus in addition to the basic salary.
- The opportunity to work in a large organization in the Life Sciences industry.
- A supportive company culture that values innovation and excellence.
- The chance to live and work in Tokyo, one of the world's most vibrant cities.

We invite all interested applicants to apply. This is a wonderful opportunity to join a prestigious organization in the Life Sciences industry and make a positive impact on the quality of our products and services.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Sobi Tantisakchaichan on +81357337165.

Required Skills

- QA experience in the pharmaceutical industry
- Strong communication skills in both Japanese and English
- Comfortable working cross-functionally and managing external partners
- Detail-oriented, proactive, and flexible in a fast-paced environment
- Fluent in Japanese
