Job Description

Position:	CAD ENGINEER
Business:	Construction Materials
Office Location:	Samut Prakan
Salary:	50,000 – 60,000 THB

Job Summary: We are seeking a detail-oriented CAD (Computer-Aided Design) Engineer to join our team. The ideal candidate will have a diploma in mechanical engineering, civil engineering, or a related field, and proficiency in CAD software such as AutoCAD, SolidWorks, or CATIA.

Key Responsibilities:

- Create and revise detailed electronic (CAD) working plans, charts, and scale drawings for complex projects from observations, measurements, sketches, and specifications.

- Prepare and interpret blueprints, schematic drawings, layouts, and other visual aids.
- Perform geometric dimensioning and tolerancing.
- Prepare detailed working diagrams of machinery and mechanical devices.
- Ensure final designs comply with regulations and quality standards.
- Collaborate with architects, engineers, and project managers to complete project plans.
- Conduct quality control checks to ensure the accuracy of all designs.
- Stay updated with the latest CAD technology and industry best practices.

Qualifications:

- Diploma in mechanical engineering, civil engineering, or a related field.
- At least 5 years' experience in drafting or other engineering related position.
- General construction knowledge along with ability to read and interpret blueprints required.
- Proficiency in CAD software such as AutoCAD, SolidWorks, or CATIA.
- Strong attention to detail and accuracy.
- Excellent technical design skills.
- Good communication and collaboration skills.
