Job Description

We are looking for a dedicated Data Governance Manager to create and manage our data governance framework for our client.

Responsibilities:

- Create and implement a comprehensive data governance framework, including standards and policies to manage and secure data effectively.
- Define and maintain data quality measures by setting validation criteria and leading initiatives to enhance data accuracy.
- Oversee compliance with data protection regulations (e.g., PDPA) and collaborate with legal and risk teams to manage data governance risks.
- Partner with business and IT teams to understand data needs, drive governance adoption, and build strong data

ownership practices.

- Lead training and awareness programs to educate teams on data governance principles and ensure widespread adoption across the company.

Qualifications:

- 4+ years in related roles with a strong grasp of data governance frameworks.
- Strong knowledge of privacy laws (e.g., PDPA) and compliance practices.
- Familiarity with data quality tools; Alation experience is a plus.
- Excellent communication and stakeholder management skills.
- Expertise in building governance policies, standards, and best practices.
