## Job Description

Our client is an IT solution provider with end-to-end support from project management to implementation to post-go-live support.

**Location:** Bangkok.

**Responsibilities:**

- Operational assistance for project engineers working on IT infrastructure.
- Assist the sales team in presenting a BOM and a proposal to the customer for system integration and solution.
- Following up, collaborating with the product seller and partner.
- Capable of growing in project management and service delivery.
- Capable of working on-site at the client's location. (If any, upcountry or in Bangkok.)

**Qualifications:**

- Bachelor's degree in IT, Computer Science, or related fields.
- Proven expertise as a Full Stack Programmer or Developer with at least two years of work experience and familiarity with HTML, CSS, JavaScript, and low code platforms.
- Understanding of database administration (SQL Server, MySQL).
- Familiarity in creating mobile and/or web applications.
- Knowledge of integrating software via web services and APIs.
- Outstanding teamwork and communication abilities.
- Excellent attention to detail, critical thinking, and organizational abilities.
- Strong communication skills in English
- Have experience in ERP, production, and warehouse management systems (It would be advantageous).
