Job Description

Company and Job Overview

A leading medical device manufacturer is looking for a highly motivated and skilled **Clinical Educator** to join their team. In this role, you will design and deliver educational programs, provide expert clinical knowledge, and support customers in implementing best practices.

Job Responsibilities

- Conduct CMEs, user training, and demonstrations on the company products, provide internal and external training, and prepare educational presentations.
- Collaborate with the sales team on marketing activities, produce educational materials, and support product launches.
- Assist distributors with product information, project configurations, and marketing activities across several countries.

- Establish rapport with KOLs, create product launch activities, and help end users publish clinical papers related to product technology.

Job Requirements

- Diploma/Bachelor in Science or Medical Related field is a must.
- At least 5 years of working experience in medical equipment industry or healthcare institution.
- Preferably candidates who have clinical experience in critical care settings within a hospital or medical facility.
- A good team player with excellent professional interpersonal skills.
- Must be able to travel extensively.
