Job Description

COMPANY OVERVIEW

An international Design & Build construction specializing in designing & construction of industrial buildings, warehouses, Data Centres, commercial buildings and many others.

Our client is looking to hire a BIM Engineer/ BIM Executive based in Kuala Lumpur to join their dynamic team of engineers as they grow rapidly.

JOB RESPONSIBILITIES

- Work with BIM Manager/Project Manager to align BIM implementation with project needs.
- Develop and manage the overall BIM implementation plan.

- Gather BIM models from various disciplines according to contracts, consultant, and project requirements, conduct clash detection for each discipline's models, and generate clash detection reports.
- Assist with drawing and technical issues for tender development.
- Responsible to Create 3D models and prepare related documents on schedule and with high quality.
- Execute and maintain the BIM execution plan.
- Liaise effectively with clients, consultants, contractors, and statutory bodies.
- Continuously review BIM project models, workflows, and methodologies to ensure timely delivery.

JOB REQUIREMENTS

- Bachelor's degree in Engineering or Diploma/ Certificate of Completion in BIM Modelling or equivalent.
- Minimum 2- 3 years of work experience using BIM Software (Revit) & AutoCAD in the construction industry
- Good communications skills

Thank you!
