Job Description

OVERVIEW

An international turnkey and engineering solutions provider, providing and specialising in gas and chemical systems that support semiconductor, oil & gas, petrochemical, refinery, chemical, and food manufacturing.

KEY REQUIREMENTS

- Possess Schweißwerkmeister certificate
- Experience in Orbital welding for tubes or pipes is a must
- Familiar with German welding standard

JOB RESPONSIBILITIES

- Manage all aspects of orbital and thermoplastic welding operations to ensure German welding standards and project specifications.
- Prepare the welding machine including programming, adjusting welding parameters, setting up all electrical and line connections, selecting weld heads and clamps, maintaining welding logs, etc.
- Install ultra-high purity (UHP) gas distribution piping and chemical delivery systems.
- Supervise and train welding teams, which primarily consist of welders and fitters, to ensure high-quality output and comply with safety and environmental regulations.
- Maintain welding equipment.
- Ensure welding activity to align and comply with German labour, health, and safety laws.

JOB REQUIREMENTS

- Five years of experience in welding especially in steel pipe, orbital, or thermoplastic welding
- At least two years of experience in the supervisor level or Schweißwerkmeister role
- Ability to read technical drawings
- An orbital welding/thermoplastics welding certificate would be an advantage
- Hands-on attitude and good working discipline
- Eligible to work in the Germany/EU

BENEFITS AND WELFARE

- Performance-based bonuses
- Health benefits: Access to health insurance and subsidies for fitness program
- Special occasion packages: Small gifts or bonuses during holidays or personal milestones (ex. get well gifts, newborn)
- Paid time off: Generous holidays and public holidays
- Flexible working hours
- Professional development
- Friendly working environment
- Job security with stable employment with clear career progression opportunities

Company Description
