**Company and Job Overview**

Our client a Japanese real estate investment and development company is looking for a senior executive to join the Design & Construction Management (DCM) Department

**Job Responsibilities**

- Oversee and coordinate ongoing development projects, handling cost estimation and construction site supervision.
- Conduct cost evaluations and supervise construction activities to ensure compliance with project requirements.
- Take charge of various construction-related responsibilities.
- Prepare comprehensive project documents and reports, review construction drawings and provide guidance on alternative approaches where necessary.
- Foster effective communication with project teams and actively participate in meetings with internal and external business partners, etc.

**Job Requirements**

- Bachelor's or college degree in architectural technology or related fields.
- Minimum 8 years of experience in the construction industry.
- Experience working with a real estate developer or general contractor in project management (PM) or construction management (CM).
- Business-level English proficiency.
- Possession of relevant qualifications such as Project Manager or Construction Manager certification.
- Strong PC skills.
- Preference for candidates with on-site construction management experience at a general contractor.

**Benefit**

- Competitive salary and benefits package
- Working Days: Monday – Friday
- Working hours: Weekdays 8:00-17:00 (Lunch break 12:00-13:00)

Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
