Job Description

About the company

Join a leading fintech company in Japan that offers a comprehensive suite of cloud-based software and financial services designed to simplify money management for both individuals and businesses. Their solutions include business applications for accounting, HR, payroll, and SaaS management, as well as personal finance tools. All their offerings are built to be user-friendly, automated, and accessible anytime, anywhere through the cloud.

Who are you

- You will be an experienced iOS app developer
- You will have a strong collaborative mindset when working with other engineers
- You will have a strong passion in continuously learning about platform information

Why you should apply

- The opportunity to work with a collaborative and internationally diverse team
- Hybrid/flexible working arrangement
- Opportunities to contribute to products serving one of the largest user bases in Japan

Required Skills

Requirements

- 4+ years of hands-on experience in iOS app development
- Proficient in creating architectural designs for iOS apps
- Experience managing development team

Desired skills

- Open to engaging in external outreach, including publishing technical articles
- Track record of operating iOS apps with a large user base
