Job Description

Company and Job Overview

Our client, who is a well-known food manufacturing is looking for a QAQC Manager to monitor and maintain the food safety management system (FSMS). This position will be based at Melaka.

Job Responsibilities

- Monitor & maintain FSMS (Procedure, HACCP manual, Food safety manual etc.) following regulatory practice
- Ensure required parameter test (physical, chemical, microbiological) for incoming materials and finished goods in QC laboratory is within specification
- Ensure incoming material, finished goods (including labelling) are complied with food safety standard and Food Act & Regulations (Local & Export countries)
- Ensure pest control management system and equipment's calibration test is in place (internal & external)
- Ensure verification program (internal audit, external lab test, mock recall etc.) carried out according to its required frequency
- Overview supplier performance (raw material & packaging material) from quality aspect
- Plan & lead all regulatory audit, customer audit, supplier audit and internal audit
- Handle customer complaint
- Prepare, control and analyze expenses vs yearly budget

Job Requirements

- Degree in Food Science/ Food Technology/ Chemistry or any related discipline
- More than 7 years of working experience in the food industry with strong managerial skill
- Preferred candidate in food industry, with knowledge of FSMS (FSSC 22000)
- Possess good leadership with logical thinking and problem solving skills
- Applicants should be Malaysian citizens or hold relevant residence status
