Job Description

Join a global investment bank's Japan office to ensure product governance and regulatory compliance while supporting data analytics across operations and commercial execution. You'll play a central role in aligning product configurations, market data access, and analytical insights with internal standards and external regulations.

Client Details

This global investment firm specializes in FX, stocks, and commodities trading, known for award-winning trading platforms and international reach. Its Japan office features a tight-knit team focused on advanced operations and innovative technology.

Description

- Manage end-to-end product governance processes in collaboration with risk and compliance teams.
- Define, document, and review product/service characteristics and ensure regulatory alignment.
- Oversee account configuration and market data authorization for Japan clients.
- Analyze client and trading data to support operations, campaigns, and incident reviews.
- Coordinate with global teams for product enablement and data configuration.

Job Offer

- Opportunity to grow within a globally integrated, multicultural team.
- Exposure to international operations and advanced financial technologies.
- Dynamic role combining compliance, analytics, and client servicing.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Carl Iso +818046764473.

Required Skills

- Bachelor's degree, preferably in Engineering or Science.
 - 2+ years in risk analytics, product governance or data analysis roles.
 - Strong SQL, VBA, and data reporting skills.
 - Experience with live client data, product configurations, and financial instruments.
 - JSDA Sales Representative Level 1 or 2 certification is a plus.
 - Proficient in English and Japanese.
