Job Description

This finance position will support client projects by managing accounting and financial operations, with a focus on process improvements, budgeting, and controlling activities | Work with notable clients, hybrid work available

Client Details

A leading global IT services and consulting firm with roots in India operates across more than 60 countries, delivering solutions in IT services, engineering, and digital platforms. The company supports a wide range of industries, including manufacturing, healthcare, finance, and technology, with a strong emphasis on digital transformation, cloud services, and modernizing enterprise systems. Its reputation is built on deep engineering expertise and a commitment to helping clients stay competitive in a rapidly evolving digital landscape.

In Japan, the company has grown steadily by providing tailored IT and engineering solutions to major local corporations. It focuses on industries such as automotive, electronics, and finance, offering services like infrastructure management, product engineering, and digital modernization. To better meet local needs, the firm invests in hiring locally, offering language support, and forming partnerships with domestic companies. This localized strategy has fostered long-term trust and positioned the company as a reliable partner for Japanese businesses pursuing innovation and global expansion.

Description

- Create and manage the global IT budget, including monitoring budget performance
- Coordinate financial planning tasks with relevant departments and site managers
- Prepare budget reports and management documents in collaboration with the planning team
- Handle administrative tasks related to budgeting and financial oversight
- Support communication between internal teams and external vendors
- Gather and organize key information from various stakeholders to support decision-making

Job Offer

- Hybrid working available
- Be a key person for notable digital transformation projects

Required Skills

- Relevant experience in finance and accounting
- Basic knowledge of Japanese bookkeeping (Level 3 or higher)
- Proficient in Japanese (JLPT N1 level or above); English skills are a plus
- Able to work with a positive, proactive mindset
- Willing to take initiative and contribute actively to the team
