### Job Description

#### About the Company

Join a leading Japanese e-commerce platform that offers a highly user-friendly marketplace, known for its intuitive mobile app and seamless listing process. This platform has earned widespread adoption not only across Japan but also in international markets, providing a dynamic environment where innovation and user experience are at the forefront of its mission.

#### Why you should apply

- A valuable opportunity to work on the design and development of one of Japan's largest-scale applications—collaborating with a skilled team while also taking ownership of features with a high degree of independence
- Flexible working style with the option to work in office or remote

### Required Skills

#### Requirements

- 5 years + of hands-on experience in Android app development using Kotlin or Java
- Strong communication skills and the ability to collaborate effectively with team members in both English and Japanese (minimum N2)

**Desired skills**

- Background in the fintech industry
- Proven experience in developing and maintaining applications with a large user base
- Experience working in a diverse and multilingual environment
