Job Description

Our client is an established MNC in precision parts manufacturing, located at Gelang Patah, Johor Bahru.

Job Responsibilities

- Facilitate communication between regional suppliers and global engineering team including participating in online meetings with a range of time zones for interpretation and translation.
- Facilitate clear and timely communication regarding expectations, deliverables, and performance while tracking current status & timelines of supplier contracts & purchase orders and escalate any schedule conflicts to management.
- Facilitate cost and quote negotiations.
- Escalate project risks and issues that could impact projects and carry out response plans determined by management.
- Create reports and status updates on project information and present to upper management.

- Coordinate with quality & compliance groups to ensure suppliers adhere to vendor standards.

Job Requirements

Degree in Engineering or its equivalent.

3-5 years experience in the manufacturing industry.

Good communication and interpersonal skills.

Interested applicants are welcomed to apply online or contact us for more information.
