Job Description

Position: APPLICATION ENGINEER -Simulation Software for Electronics

Industry: Simulation Software

Salary: 50,000 – 70,000 THB – open to discuss

Location: Bangkok

Working Condition: Monday – Friday, with 2 days of work from home / week

Job Summary: We are seeking a talented Application Engineer to join our team, specializing in CAE Simulation Solutions. The successful candidate will be responsible for providing technical expertise and support to our clients, ensuring the effective use of CAE tools to optimize product designs and processes.

Key Responsibilities:

- Provide pre-sales and post-sales technical support to clients, including product demonstrations, training, and

troubleshooting.

- Develop and validate simulation models using CAE tools such as **ANSYS, Abaqus, or similar software.**
- Collaborate with clients to understand their engineering challenges and provide tailored simulation solutions.
- Document and present simulation results and recommendations to clients and internal teams.
- Stay updated with the latest advancements in CAE technologies and methodologies.
- Assist in the development and implementation of new CAE methodologies and tools.

Qualifications:

- Bachelor's or Master's degree in Engineering, or a related field.
- Minimum 2 experience in CAE simulation.
- **Proficiency in CAE software such as ANSYS, Abaqus, Hypermesh, or similar tools.**
- Strong problem-solving skills and attention to detail.
- Excellent communication and presentation skills.
- Ability to work effectively in a team environment and manage multiple projects simultaneously.
