Job Description

Company and Job Overview

A pioneering Japanese company in vacuum solutions is seeking a Field Service Engineer EMEA (m/f/d) in Munich.

Job Responsibilities

- Install, start-up and service our equipment and components
- Troubleshoot, analyze defects and repair our systems in the field
- Technical support in-house and onsite customers
- Sales Support for spare parts, components, service and special technical solutions
- Technical support for tests and special applications of our customers in the laboratories

- Preventive maintenance and addressing the challenges presented by our customers
- Train customers on our products

Job Requirements

- High technical competence i.e. Engineering Degree in Mechanical or Electrical Engineering or technician with 3-5 years of experience
- Experience in vacuum technology is an advantage. Also experience in plumbing, fluids and robotics is desirable
- Experience in troubleshooting and solving complex technical issues
- Knowledge of and an attitude for working on mechanical, computer, electrical, pneumatics and electro-mechanical control systems
- Well-organized, able to work in a team as well as independently
- Speaking English fluently and good interpersonal skills
- High flexibility, motivation and willing to travel within Europe and overseas regularly
