Job Description

About Nucleus Software

Nucleus Software has been delivering innovative products and services to global and regional financial institutions for over 36 years. As a pioneering IT services provider, Nucleus combines deep banking domain expertise with cutting-edge technology to power the operations of over 200 financial institutions across 50 countries.

Our platforms support a wide range of financial services including:

- Retail and corporate banking
- Cash management
- Internet and mobile banking
- Automotive finance
- Other mission-critical financial operations

Key Highlights:

36 years of focused expertise in banking and financial services

Trusted by both global and regional banks as a preferred transformation partner

Specialists in driving large-scale digitalization programs using Cloud, Data Science, AI/ML, DevOps, and RPA

A company culture centered on an “Employee First” approach
100% referenceable services customers with outstanding C-SAT scores
Recognized as a “**Great Place to Work**” by a leading global research organization

Job Opportunity: **AWS Migration Project Manager (Japan)**

We are looking for a highly experienced AWS Migration Project Manager to lead cloud migration and infrastructure standardization initiatives for a financial institution in Japan.

Key Qualifications:

Strong project management experience with a focus on AWS/cloud migrations
Fluency in Japanese and English
Proven ability to manage cross-functional teams and global delivery models

Roles and Responsibilities

Project Management

Lead end-to-end AWS cloud migration projects in coordination with customer IT teams and business units
Define project scope, timelines, and quality benchmarks
Maintain project plans and documentation throughout the lifecycle
Collaborate with hybrid teams located onsite and offshore (India)

Stakeholder Engagement

Build and maintain productive relationships across business and technical teams
Ensure clear and timely communication with all stakeholders
Interface with business users, client IT teams, development teams, and vendors

Communication & Reporting

Act as the main communication bridge between stakeholders and technical teams
Deliver project updates, risk assessments, and progress reports in Japanese and English
Facilitate issue resolution and status tracking at the executive level

Quality Assurance

Oversee testing and validation processes to ensure solution integrity
Manage project change requests and maintain documentation quality
Drive excellence across project delivery

Knowledge Sharing & Support

Promote best practices and share lessons learned within the team
Contribute to process improvements and team development

Additional Responsibilities

Participate in RFP/proposal creation as needed
Deliver presentations and demonstrate solutions to clients in Japan

Required Skills

Basic Qualifications

Bachelor's degree in Information Technology, Computer Science, Engineering, or a related field
15+ years of proven project management experience in IT, with a solid record of successful project delivery
Strong understanding of Software Development Life Cycle (SDLC) processes and documentation standards
Hands-on experience with AWS/cloud migration projects
Excellent interpersonal and communication skills, with the ability to influence outcomes and build strong stakeholder relationships
Fluent in Japanese and English—both spoken and written

Preferred Qualifications

PMP (Project Management Professional) certification
Experience leading digital transformation and cloud migration initiatives
Background in the financial services domain, particularly with card companies or consumer finance portfolios

Career Progression at Nucleus

At Nucleus, we take pride in identifying, nurturing, and promoting internal talent. We value long-term, mutually rewarding relationships with our associates and are committed to supporting continuous growth.

With strong performance and leadership, this role offers a clear path toward:

Program Manager
Program Director

And beyond, based on your aspirations and capabilities

We offer a supportive environment that encourages professional development aligned with individual goals and organizational growth.
