### Job Description

**Position Title:** Clinical Education Specialist

**Overall Responsibilities:**

The primary responsibility of the Clinical Education Specialist (CES) is to support our initiatives within to provide clinicians (primarily surgeons and surgical residents) with seminars and hands-on training opportunities that meet their educational

needs and that align with the focus of Applied Medical. Specifically, the CES coordinates all aspects of the hands-on and virtual training programs that we support in areas such as: trans anal surgery, vNOTES, HALS, single-incision surgery, and basic laparoscopic skills. The CES provides support during cadaveric, and simulation courses.

## ESSENTIAL FUNCTIONS

### Essential Duties and Responsibilities:

- Understand and follow Applied Medical's Quality Systems (QS) per training.
- Read, write, speak and communicate effectively with other team members and comprehend work and safety instructions.
- Understand and comply with safety rules and Company policies.
- Proven experience in facilitating events and building networks.

### Other Duties and Responsibilities:

- Identify and prioritize the training needs of our customers and support the development and implementation of appropriate training strategies/plans.
- Build relationships with surgeons and societies that Applied Medical Japan can partner with to deliver high-quality training.
- Promote minimally invasive surgeries and safe implementation of the surgeries to the market through webinars and workshops.
- As a member of the APAC team, collaborate with other country teams and support event activities.
