### Job Description

We are seeking a meticulous and analytical Supply Planner to oversee our company's supply chain operations. The Supply Planner's responsibilities include maintaining positive vendor relationships, coordinating with other departments to ensure timely order fulfillment, and identifying potential supply chain issues.

### Client Details

Our client is a large organization in the industrial and manufacturing sector. They are known for their consistent commitment to quality, rigorous standards, and innovative approach. With a global presence, they have a significant footprint in Japan, specifically in Kanagawa.

### Description

- Coordinate with vendors and suppliers to ensure timely delivery of products
- Analyze supply chain metrics to identify areas of improvement
- Collaborate with procurement and production departments to anticipate future needs
- Develop supply chain reports and present findings to management
- Identify potential supply chain issues and implement effective countermeasures
- Maintain positive vendor relationships to ensure best possible pricing and delivery schedules

- Participate in cross-functional teams to execute the procurement strategy
- Stay informed about the industry trends and market conditions

#### Job Offer

- A salary range of around 5,400,000 JPY to 8,000,000 JPY
- A professional, yet friendly, work environment
- Opportunities for professional growth and development
- The chance to work in a global company with a strong presence in the industrial and manufacturing industry
- A location in Kanagawa, one of Japan's most vibrant regions

Supply Planner position in our Kanagawa location is a great opportunity for anyone seeking to further their career in the industrial and manufacturing industry. We encourage all interested candidates to apply.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Geo Louw on +81364021516

---

#### Required Skills

A successful Supply Planner should have:

- A degree in business administration, supply chain management or a related field
- Strong numerical and analytical skills
- Excellent negotiation and vendor management skills
- Proficiency in supply chain management software
- Ability to work in a fast-paced environment and handle multiple projects
- Strong communication skills in both English and Japanese
