Job Description

Hiring position: Engineer Staff

Location: :Sriracha, Chonburi

Responsible

- Experience in designing and developing practical components and products for industrial factories.
- Collaborate with production, quality control, and sales teams to optimize product and process design.
- Communicate with customers and suppliers to develop, evaluate, test, and improve product quality.
- Provide technical support and resolve issues related to existing products.
- Work with Japanese teams, share information, and participate in business strategy planning.

Qualifications:

- Bachelor's degree in Mechanical Engineering or related fields.
- Experience in metal mold design or engineering.
- Proficient in CAD software (e.g., CATIA, SolidWorks, AutoCAD).
- Knowledge of metal materials, structural analysis, and engine systems.
- Ability to analyze costs and propose solutions.
- Experience working with large OEMs or tier-1 suppliers.
- English proficiency (Japanese language skills are a plus).
- Able to read design drawings.
