Job Description

Designation - AM/DM - Maintenance

Location - Neemrana, Rajasthan

JOB RESPONSIBILITIES:

Profile: Performs routine maintenance, repairs, and troubleshooting of CNC machines to ensure optimal performance and minimize downtime

- Skills: Performing routine checks on machine parameters like speed, feed, and coolant levels.
- Inspecting and adjusting machine alignment and leveling.
- Troubleshooting and repairing electrical, hydraulic, and pneumatic systems.
- Identifying and replacing worn or damaged parts.
- Calibrating machine tools and fixtures.
- Using diagnostic tools to pinpoint issues.
- Following manufacturer's guidelines and procedures.
- Collaborating with operators and engineers to optimize machine performance.

Key Responsibilities:

- Preventive Maintenance: Regularly inspect, lubricate, and replace worn parts to prevent breakdowns.
 - Troubleshooting and Repair: Diagnose and repair mechanical, electrical, and hydraulic issues on CNC machines.
 - Preventive Maintenance Programs: Develop and implement preventive maintenance schedules and procedures.
 - Collaboration: Work with production and other teams to identify and resolve issues.
 - Record Keeping: Maintain accurate records of maintenance activities, including schedules, inventory, and repairs.
 - Continuous Improvement: Identify and implement process improvements to enhance efficiency and reduce downtime.
 - Safety: Ensure a safe working environment by adhering to safety regulations and procedures.
- Industry Knowledge: Stay informed about the latest CNC technologies and maintenance practices.
