Job Description

Company and Job Overview

A company that globally distributes chemical products is looking to hire a logistics specialist (dedicated to the liquid chemicals division).

This company plays an important role in supporting industries around the world by providing a stable supply of chemicals. In the liquid chemicals field in particular, it has built a global supply chain by leveraging its international transportation network and advanced quality control system. The company offers an environment where you can grow while utilizing your expertise in the dynamic field of international logistics.

Job Responsibilities

- Arranging and managing schedules for the international transportation of liquid chemicals by bulk carriers
- Coordinating and negotiating with shipping companies, port operators, and forwarders
- Optimizing inventory management and storage systems in cooperation with warehouse bases in Europe
- Analyzing transportation costs and proposing improvements for efficiency

Job Requirements

- At least 3 years of practical experience in logistics or supply chain management
 - Practical experience in bulk shipping of liquid chemicals
 - Business communication skills in English
 - The following experience and skills are desirable:
 - Knowledge of dangerous goods transportation (ADR/IMDG)
 - Understanding of international trade practices (Incoterms, export control, etc.)
-
