Job Description

We are looking for passionate and detail-oriented Android Developer to join our client growing software development team. You will be part of collaborative R&D environment, building high performance applications for the Android platform across a range of smart devices, including Android TV.

- Location to work: Selangor
- Hybrid work

Job Description:

- Design and develop Android applications using Java and Kotlin, tailored for consumer electronics.
- Collaborate with product, design and backend teams to define features and deliver seamless user experiences
- Work with 3rd party and internal private APIs

- Lead work on bug fixing and improving application performance
- Develop text framework for Android solutions
- Report finding and conclusion of a SW related problem

Job Requirements:

- Bachelor Degree in Computer Science, Software Engineering, Multimedia Technology, Electrical & Electronics, Mechatronics or any related field
- 4-5 years of hands-on experience in software development, with a focus on Android applications
- Strong working knowledge of Java, experience with Kotlin is a plus
- Solid understanding of Android SDK and common libraries/ tools used in Android app development
- Able to work independently to develop features, investigate and resolve software defects
- Strong communication skills and able to work effectively in a team environment especially in cross functional teams
