### Job Description

#### Company and Job Overview

Our client is an established manufacturing of household and hygiene products. They are looking for Factory Manager to execute direction, strategy and delivery of the manufacturing activities.

#### Job Responsibilities

- Lead and manage the overall operations of the factory, including production (processing & packaging), QA/QC and engineering
- Drive continuous improvement in productivity using OEE and other best practice measurements
- Coordinate production activities with other functional groups such as finance, sales, marketing and others
- Forecast operating costs for the department and direct preparation of budget requests
- Manage approved budgets with a focus on controlling cost, reducing waste and eliminating inefficiencies
- Ensure all manufactured products comply with regulatory standards, prescribed Process Descriptions and the Quality Management System (QMS)

- Establish and adhere to a production plan and schedule, ensuring OPEX and CAPEX remain within the yearly budget

**Job Requirements**

- Bachelor's Degree in Manufacturing or Engineering related discipline
- At least 10 years of experience in production operations, with at least 5 years in a leadership role, preferable within the FMCG industry
- Familiar with the operation of filling machines
- Strong analytical skills, with proficiency in Microsoft Excel, Power Point and SAP
- Able to excel in a fast-paced and rapid changing environment
- Independent, self-motivated and results-oriented
- Applicants must be Malaysian citizens or hold relevant residency status
