### Job Description

Our client is a reputable Japanese multinational Specializes in Wastewater treatment plants (WWTP) and environmental solutions. They are currently looking for an **Plant Sales Engineer** to spearhead project proposals and technical sales processes within the government sector.

**Location to work:** Petaling Jaya, Selangor

### Responsibilities:-

- Lead engineering proposals for wastewater treatment plant projects targeting the government sector
- Collaborate with internal stakeholders (Malaysia & Japan HQ) to design competitive plant solutions
- Translate client requirements into technical concepts: process flow, plant layout, equipment specs and budget

estimates

- Prepare and submit comprehensive bidding documents and technical proposals
- Act as liaison between sales and engineering teams to drive project acquisition
- Coordinate with clients, consultants and project managers throughout the proposal and implementation phases
- Support cross boarder contract discussions and import/ export documentation where necessary

**Job Requirements:**

- Bachelor Degree in Engineering (Mechanical, Electrical, Biological, Chemical or Civil)
- 5-10 years' experience in plant engineering or proposal development for government -led infrastructure projects
- Solid exposure to wastewater treatment or similar industrial plant systems
- Proficient in interpreting tender documents and producing technical proposals
- Familiar with engineering software and tools, especially AutoCAD, Excel, Word, and PowerPoint
- Exposure to international project bidding and contract negotiations is a strong advantage
- Fluent in both English and Malay (Spoken and Written)
