Job Description

Company Overview: One of the leading Japanese automotive components manufacturing company.

Job Overview:

The ideal candidate will have expertise in fire fighting and protection systems, chemical safety, emergency preparedness, risk management, electrical safety, and legal compliance. Environmental knowledge will be an added advantage.

Job Responsibilities:

- Fire Fighting & Protection Systems: Develop, implement, and maintain fire fighting and protection systems to ensure the safety of personnel and property.
- Chemical Safety: Ensure safe transport, storage, handling, and disposal of chemicals. Maintain compliance with

- relevant safety regulations.
- Emergency Preparedness: Develop and execute mock drills and onsite emergency plans. Ensure readiness for potential emergencies.
- Risk Management: Identify, assess, and control fire and explosion risks. Implement strategies to mitigate these risks.
- Electrical Safety: Ensure compliance with electrical safety standards and legal requirements. Conduct regular inspections and audits.
- · Documentation: Maintain accurate records and documentation for safety inspections, incidents, and training sessions.
- Inspections & Audits: Conduct regular inspections and audits to identify potential safety issues and ensure compliance with established safety protocols.

Job Requirements:

- Engineering graduate having qualification in EHS
- Must be having 4-6 years' experience working into automotive componenets manufacturing organization or any manufacturing organization
- Strong understanding of risk management and control for fire and explosion risks.
