Job Description

Job Title: Technical Operations Manager**Location:** Seoul, South Korea**About Us:**

Then client is an expert in assurance and risk management, safeguarding life, property, and the environment. As a trusted voice for many successful organizations, they advance safety and performance, setting industry benchmarks and tackling global transformations. Their Business Assurance division helps companies ensure compliance and build high-performing management systems.

Job Description:

This is a senior position with strong growth potential and significant impact over local strategy, operations, and talent development.

Main Responsibilities:

- Design and execute operational strategies to deliver service excellence and drive growth.
- Build, maintain, and expand strong customer relationships, leveraging your existing industry network ().
- Act as the technical lead for key projects and client engagements, solving complex challenges in real-time.
- Identify new market opportunities and tailor company's services to Korean customer needs.

Qualifications:

- Bachelor's degree or higher in Engineering, Science, or a related field.
- Minimum 15 years of experience in technical operations or quality management, preferably within the TIC or EPC industry.
- Proven track record of leadership in customer-facing technical roles.
- Strong customer and industry network in the Korean TIC market.
