### Job Description

**Job Title:** Lab Technician

**Location:** Singapore

**About Us:**

The company is a leading cord blood and cord tissue banking company dedicated to "providing a choice of new medical care for new life." In this role, you will play a vital part in the separation, processing, and storage of cord blood and umbilical cord samples, contributing to the advancement of regenerative medicine.

**Key Responsibilities:**

- Assist in the separation, processing, and storage of cord blood and umbilical cord samples according to established protocols
- Adhere strictly to Standard Operating Procedures (SOPs) to ensure the proper and safe handling of all biological specimens

- Ensure proper labeling and tracking of specimens at all stages of processing to maintain chain of custody
- Maintain a clean, organized, and contamination-free work environment, following all established hygiene standards

**Qualifications:**

- Bachelor's degree in Life Sciences, Biotechnology, or a related scientific field
- 3-5 years of experience in hands-on experience working in a laboratory setting, specifically with biological sample processing.
- Solid understanding of basic laboratory techniques and safety protocols
- Ability to work both independently and collaboratively as part of a team
