Job Description

A leading technology company is looking for a dedicated and enthusiastic Software Engineer to join its development team. This role is ideal for junior developers who are passionate about software development and eager to gain hands-on experience in a fast-growing industry.

Responsibilities:
• Design, develop, and test software components for a platform.
• Collaborate with team members and stakeholders to understand requirements and integrate software modules effectively.
• Write clean, efficient, and well-documented code in accordance with best practices and coding standards.
• Perform unit testing and integration testing to ensure functionality and reliability.
• Stay informed on current technologies and industry trends.
• Contribute to technical documentation and ongoing system maintenance.
• Maintain a commitment to learning new technologies, tools, and frameworks as needed.

Qualifications:
• Bachelor's degree in Computer Science, Software Engineering, or a related field.
• Proficiency in or familiarity with Java programming.
• Basic knowledge of relational databases (e.g., SQL) and cloud platforms is a plus.
• Strong attention to detail and a proactive approach to quality assurance.
• Willingness to learn and adapt in a dynamic work environment.
• Effective communication, collaboration, and problem-solving skills.
• Proficiency in English.

Interested candidate, please submit your most recent resume in English (Word format) by simply clicking "APPLY NOW'
