Job Description

We are seeking an experienced IT Project Manager to lead and coordinate multiple technology projects across various domains including systems, security, and networks. If you thrive in dynamic environments and enjoy solving complex problems, we'd love to hear from you!

Responsibilities

- Oversee end-to-end project management, including initial scoping, detailed planning, resource coordination, execution, deployment, and post-launch support.
- Collaborate effectively with internal departments and external vendors to ensure smooth project delivery.
- Guide project teams with strategic insight, promoting proactive planning and timely decision-making.
- Apply creative problem-solving to technical challenges, converting business needs into actionable project strategies.
- Prepare and maintain comprehensive project documentation such as work breakdown structures (WBS), progress reports, and risk/issue logs.

Qualifications

- 3+ years of hands-on experience managing IT projects.
- Prior involvement in IT implementations related to systems, cybersecurity, or networking is highly desirable.
- Strong communication skills to effectively define project scope and lead cross-functional teams.
- Demonstrated expertise in project planning, scheduling, stakeholder communication, issue resolution, change control, and risk mitigation.
- Excellent analytical and problem-solving abilities.
- Skilled in documenting workflows and producing clear, organized reports.
